HOME COMFORT WITH SELF-INSTALL HEAT & COOLING

EZ Connect Heating and Cooling

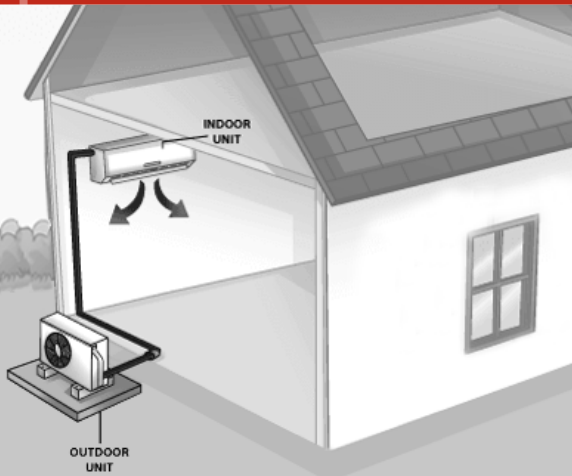

BUCK COOL EZ Connect Mini Splits

Efficient. Quiet. Powerful.

Benefits of Self Install

Our EZ connect systems save you time and money. There is no need to pay installation costs or work around an installer's schedule.

Our units are high quality, dependable, and efficient.

Completely install your system in around 4 hours.

No natural gas or propane required.

Save on your energy bills!

Powerful Features and Great Performance Made Simple

Our EZ connect systems put you in control of your own install. Skip the expensive installation bills and waiting on a technician - install your own mini split system in around 4 hours!

The pre-charged EZ connect line sets allow for a simple installation process without the need for an HVAC technician

Everything you need is included in your EZ Connect kit, all you need to provide are the tools

Our systems utilize high efficiency rotary compressors and dc inverter driven motors

Easily connect your unit to your phone with the included Wifi adaptor

The included remote is equipped with multiple modes to choose from and an LCD screen for ease of use.
